

SUMMER TASK

CRIMINOLOGY

In preparation for year one, you have some work to do over the summer.

TASK:

Digitally design an eye catching poster aimed at raising awareness of an unreported or hidden crime in the UK.

Your poster needs to include:

- Information about the tell-tale signs of this crime and what the public and/or victims of the crime need to look out for.
- An explanation of why the activity is criminal and/or how it is harmful.
- How/where to report this crime.

- It must be presented in A4 size.
- It must be digital i.e. designed on the computer
- Make it as eye-catching and thought provoking as possible.
- Think about your audience, and your use of colour and images.
- Make sure it is clear which crime you are informing the public about.

These will need to be handed in on paper (e.g. printed) to your criminology teacher during your first week in JLC.

If you do not have a colour printer at home, then it could be printed off in college when you join us on campus.
