

SUMMER TASK

FASHION & TEXTILES

In preparation for year one, you have some work to do over the summer.

TASK 1: RESEARCH

As part of the A Level you will study layout and presentation in a variety of ways and approaches. You will be required to produce both practical and written work examples during the summer holiday. This will be part of our enrolment requirements. (This is applicable to this subject only)

1) **Set up your own Pinterest account on your phone or home computer. www.pinterest.co.uk**

Look up Fashion and Textiles sketch book pages and select a few to analyse and study for inspiration for your next task. Once you have done this, choose one to further study. Print out the image and write a 400-600 word analysis. To ensure you get the most out of this task, write about how the work makes you feel and what key elements have been used on this sketchbook page.

Remember to analyse the work, not describe.

TASK 2: PRACTICAL

Following the inspiration from your design sketchbook layout pages on pinterest, complete the following task.

1) **Produce a minimum of x1 A3 Design Page in a similar style with a balance of design sketches, pictures and annotation.**

Use the theme Native Americans.

You will need to research this theme, check out Instagram by searching #nativeamericans, Cherokee_native_americans, or online and create a mood-board of inspiration to help you design your new product. You can design anything from Fashion clothing, accessories, interiors and wearable art.

You can do this by using digital media or through the use of a variety mixed media, or both. This can include collage, fabric swatches, illustrations and flat technical drawings.
