

SUMMER TASK

GAMES TRIPLE

In preparation for year one, you have some work to do over the summer.

TASK: CV

The following page shows a short, succinct CV for a games graduate attempting to enter the Industry. The employment section has purposefully been removed for this reason. For your summer task, you need to write your OWN CV, as you currently imagine it would be. You can tweak the layout and structure but must consider the skills, qualifications and experience you would like to see on your CV when you graduate from University. Obviously this is likely to change and adapt, but it is important to consider the destination before you begin your journey.

Scunthorpe
2023

Hobbies and Interests

I am passionate about gaming outside of work and play competitive games in my free time. I have recently begun working towards earning my pilot's license and try to get flight hours when possible around my work schedule. I also volunteer regularly at music venues in town as an usher.
